## A Complete Solution

---

We were simply looking for a way to add to our firm's bottom line when we found ORDP. It's been 20 years now, and my CDL practice has grown so much that it allowed me to hire three law clerks (with one more starting soon). Through the demand in this underserved market, I have stopped my tax practice to focus solely on CDL. My ORDP cases and clients have turned into additional cases representing trucking companies and representing CDL Drivers in civil cases. I love that with ORDP, we're working together to do what's best for the client. To me, it's about building relationships.
